Recommendation Letter

To Whom It May Concern,

I am writing to provide a recommendation for Adonis Haile, who worked as a Junior Backend Developer in our Integration Division at Anbesa Bank.

During his time with our team, He demonstrated sharp analytical skills and a solid grasp of backend development. He was responsible for developing and integrating APIs, writing clean code in Java, and troubleshooting technical issues across our financial platforms. In addition he was working on front-end projects on Android and iOS app upgrade.

He is a fast learner who quickly adapts to new tools, frameworks, and project demands—including stepping into full-stack responsibilities when needed. He also has commendable communication skills.

While He wasn't typically an early morning starter, he made up for it with their quick grasp of tasks and consistent quality of work once engaged.

Sincerely,

Addisu Thomas

Director, Digital Technology Banking C&P
